Summary

I am a dedicated and experienced Full Stack Developer with a strong passion for creating exceptional web solutions. With 7 years of industry experience, my expertise lies in PHP, MySQL, WordPress, JavaScript, jQuery, HTML, CSS, MOODLE, and SCORM LMS.

I have successfully delivered a diverse range of projects, including responsive website development, WordPress customization, API integration, and e-learning platform implementation.

Experience

Wordpress Developer

Upwork

Jul 2010 - Present (13 years 7 months)

I am a freelance WordPress developer specializing in crafting visually stunning and highly functional websites. With expertise in themes, plugins, and Elementor, I bring a unique blend of creativity and technical proficiency to every project. My commitment to staying updated on industry trends and collaborating closely with clients ensures the delivery of websites that not only meet but exceed expectations, providing a seamless and engaging online experience.

Web Developer

South Valley University-Qena

Jun 2007 - Present (16 years 8 months)

As an E-Content Developer at South Valley University's eLearning Center, I played a pivotal role in creating engaging and effective digital learning experiences. My responsibilities encompassed a range of tasks that contributed to the enhancement of online education through innovative e-course development.

Key Responsibilities:

Moodle Management: Spearheaded the management and optimization of the Moodle platform, ensuring a seamless and user-friendly experience for both educators and learners. Implemented strategies to enhance course accessibility and navigation.

Articulate Course Lab: Leveraged Articulate Course Lab to design and develop interactive e-courses. Transformed complex academic content into engaging multimedia experiences, incorporating interactive elements to foster an immersive learning environment.

Remark Office for E-Correction: Utilized Remark Office for efficient and accurate e-correction processes. Streamlined the assessment and feedback workflow, ensuring timely and constructive feedback for students.

Achievements:

Innovative E-Course Design: Successfully conceptualized and developed e-courses that catered to diverse learning styles, incorporating multimedia elements and interactive assessments for a richer learning experience.

Efficient E-Correction Workflow: Implemented a more efficient e-correction process using Remark Office, reducing turnaround time for grading and providing timely feedback to students.

Collaborative Projects:

Collaborated with subject matter experts and faculty members to translate academic content into engaging online modules, fostering a collaborative environment for effective e-learning.

Conducted training sessions for educators on effective use of e-learning tools, enhancing their digital teaching capabilities and promoting the integration of technology in education.

Internship Trainee

المدرسة - Almdrasa

Nov 2023 - Present (3 months)

I am currently engaged in an internship where I am gaining practical experience and applying my skills as a Full Stack Developer. In this role, I am actively involved in tasks that encompass both front-end and back-end development, utilizing my expertise in Python, data structures, HTML, CSS, JavaScript, and React. This internship provides me with the opportunity to contribute to real-world projects, learn from experienced professionals, and further refine my abilities in the full stack development domain.

I am enthusiastic about the challenges and learning opportunities this internship offers, and I am committed to making valuable contributions to the team and project objectives.

Education

Assiut University

Bachelor's degree, Computer Science

2002 - 2006

I am a highly motivated Computer Science graduate with a solid foundation in key programming languages and data structures. During my academic journey, I immersed myself in the world of database programming, honing my skills in C++, C#, and mastering the intricacies of data structures.
